

SPIRIT OF THE DRAGON

VENI VIDI VICI dedicates its " **SPIRIT OF THE DRAGON** " collection to the conquerors, the men and women who shape our society.

For them, VENI VIDI VICI creates a refined and powerful chronometer, virile with just the right feminine touch.

VENI VIDI VICI anticipates the requirements of a modern world and introduces for active, refined men and women, mechanical watches with automatic wind ideal for every moment of the day. Precise for the management of one's time, resistant to the elements, comfortable to the point of forgetfulness and elegant for the special occasions.

AN ELEGANT CASE

VENI VIDI VICI has designed a case combining sobriety and creativity. The simplicity of its form, the round balanced shape, with scales harmoniously integrated as fasteners to enclose the bracelet. The case is delivered with a complete gloss and polished finish. The bottom is available with the engraved VENI VIDI VICI make or with an ice sapphire to reveal the decorated movement.

A DAZZLING BRACELET

A technical and esthetic challenge, the scale-shaped bracelet is a spectacular success. In perfect symbiosis with the enclosure, the bracelet gives an exceptional personality to the watch, making it unforgettable. VENI VIDI VICI also makes bracelets available in crocodile-skin matching the colour of the dial.

LARGE CHOICE OF DIALS

Detail-oriented to such a degree makes it possible for a broad range of dials to be made available. If the "sport" range is equipped with indices, the refinement of dials with Roman or Arabic numerals is undeniable. Decoration guilloché are also available. The symbol of VENI VIDI VICI crowns the 12 o'clock dial, with the make's signature drawn in an arc. This sober, dynamic, vigorous geometry reinforces the watch's character.

THE CASE

For the " **SPIRIT OF THE DRAGON** " collection, a superior-class casing was needed, something which transcends the functions of a simple container. The use of the logo came naturally, its generous curves and subtle interlacings makes one want to touch it and discover its mystery. It is the symbol of a make which successfully marries beauty with functionality.
